

**Vegetables: From Seed to Table and Beyond**  
**Module 3 : “ Sustainable Development**  
**9 Nov- 4 Dec.2015**

**King Abdullah II**  
**King of the Hashemite Kingdom of Jordan**

# The most useful topics are:

- **Scaling up Extension Project**
- **Development Communication**
- **Development Action Plan**

# **The main key problems are:**

- **The Ministry of Agriculture staff are not well informed about the quarantine laws and regulations**
- **The importers don't comply with the new norms and regulation of importations**

# **Development Action Plan**

***Title: Capacity building for government officers on quarantine related regulation of fresh horticulture produce***

# **The Objectives:**

- **To provide greater awareness and understanding of the quarantine laws of the country and their importance to government officials**
- **To improve the current quarantine enforcement system with trained staff**

# **Our target Group**

**Ministry of Agriculture Inspectors working in the quarantine of fresh horticultural products**

Activities	Outputs	Outcomes
Conduct training for quality control inspectors	Number of Ministry inspectors trained	Increase the knowledge regarding the quarantine measures
Create a guideline concerning the quality requirements for importers	Import guidelines developed	Decrease the problems in the quarantine area
Arrange field visits, abroad for training	The trained inspector at the Ministry of Agriculture	Develop the inspector skills
Provide the inspectors with new equipment	New instruments are purchased	More accurate results regarding the inspection

# Challenges

**The inspectors worked on the boarder for many years and may not adapt to the new technologies**

**Thank you for you attention**
